Hi Diane,

I left you a voicemail a few minutes ago and am following up with a quick email. EPA met on December 3rd with DoW, TBI, NRDC in response to their NOI to sue EPA regarding actions they consider variances to water quality standards. At this meeting, EPA agreed to set up another meeting with technical staff to discuss standards updates. We were wondering if you would like any of your staff to be there since these are Water Board standards. We'd be happy to include you or your staff if you'd like someone to be there for the discussion. Just let us know who that would be. Valentina will be working with Jon Rosenfield at TBI over the next two weeks to identify the people to invite and meeting dates that work.

Let us know if you have any questions or would like to discuss it more.

Thanks!!

Erin

Hi Diane,

I made the attached table to summarize the TUCP changes to implementation of WQ objectives over the last two years. I drafted it for internal discussions about the 60-day notice of intent to sue we received from NRDC, DOF, TBI, and others.

I was wondering if you would be willing to have someone on your team review it for accuracy and let me know if there are mistakes. I tried to get it all correct but there may be things that I didn't understand precisely or correctly. I completely understand if you can't spare the staff time to do this but I thought I would ask in the interest of making sure we are accurate when we discuss the changes.

Thanks,

Erin

Hi Diane,

Thanks for your speedy quick reply! And thank you to Rich and Jason for checking the links.

I was able to summarize the changes in the orders I can't access because they are nicely reviewed in September and October 2014 orders. I will need to supply the originals for the attorneys eventually though.

Thanks again & Happy Thanksgiving to all of you this week 😊.

Hi Erin,

Sorry about that. Rich and Jason are going to look into that for you and get back to you. Hope all is well with you.

Take care,

Diane

Hi Diane,

I'm pulling together information on all the TUCP orders from 2014 and 2015 in response to a 60-day notice of intent to sue EPA relative to federally approved water quality standards and changes in the TUCP orders. I think John Kemmerer flagged this on the bi-monthly call with State Water Board, so hopefully it is not a surprise to you. If you want more information about it, I'm happy to talk to you about it.

I was wondering if you could either send me the TUCP orders from these dates April

April 9, 2014

April 11, 2014

April 18, 2014

May 2, 2014

Or have the links repaired on this site

http://www.waterboards.ca.gov/waterrights/water_issues/programs/drought/tucp/

This is the page that comes up when I click on the orders for those dates

<http://www.waterboards.ca.gov/waterrights/404.shtml?>

Hope you are doing well,

Erin
